BIOGRAPHY

DJ Isabel Silvia is a DJ blending funky EDM and melodic Afro House creating high-energy, feel-good sets built to move bodies and lift the room. Growing up surrounded by music, she spent years on the business side of events before stepping into the spotlight as a performer, driven by her electric stage presence.

After starting her DJ journey in Ibiza, she made a guest appearance at the Montreux Jazz Festival - Olivia Sunset 2026, and has gone on to play at various bars, clubs, restaurants, and private events while making her way into the festival scene. With an instinctive connection to the crowd, she keeps the dance floor alive and leaves audiences buzzing with a natural high.
